ature by mail.

JOIN THE SERVICE FOR HUMANITY

Give the Sick Child a Chance.

Safeguard the Settler from Ill Health.

Protect the Prospective Mother.

Educate All Children in Health.

THE WAY TO HELP By a Contribution to Red Cross Funds

By a Red Cross Dance or Entertain-
ment.

By a Donation of Grain.

Alberta Division Canadian Red Cross Society.

Traders' Building, Calgary Alberta.

Whist Drive And Dance

The first whist drive and
dance of the season given by
the O. E. S. on Monday evening
was a decided success in every
way, proving that the con-
tinuance of these events dur-
ing another season has been
looked eagerly forward to, no
even extremely bad roads were
braved to be present. Fourteen
tables were required to accom-
modate the whist players and
the contest was keen and en-
joyable. The local orchestra,
J. Anderson, F. Clover and Miss
Watkins furnished excellent
music for the dance, which fol-
lowed a tasty lunch. The O. E.
S. have been particularly fortu-
nate in their efforts to enter-
tain in previous years and Mon-
day night's success is a further
tribute to their ability in this
direction.

Dr. Freeze and Miss Bowman
were the winners of the first
prize for gentlemen and ladies,
respectively, while J. N. Beau-
bier and Mrs. J. T. Stephenson
shared the consolation prizes.
Everyone concerned in the
arrangements, particularly in-
cluding the lunch, are deserv-
ing of the best in congratula-
tions.

Sale of Poppies Armistice Day

The distribution of Vetreraft
Poppies as the "Flower of Re-
membrance" this year on Arm-
istice Day will assume propor-
tions far in excess of any year
since the institution of the cus-
tom. Orders received by the
G. W. V. A., which acts as dis-
tributing agent for Vetreraft
Poppies, are now in excess of
the total distribution last year
by several hundred thousand.
Approximately a million poppies
were worn by Canadians last
Armistice Day. This year
it is estimated that the total
distribution will exceed a mil-
lion and three quarters.

E. J. Garland Gets Good Hearing

E. J. Garland addressed his
meeting in McCullough's hall
on Monday evening and was
heard by a good audience de-
spite counter attractions and
almost impassable roads. Mr.
Garland is a fluent speaker and
made a very favorable impres-
sion on his audience. Natu-
rally his theme was largely the
utter incapacity of the two old
parties, the liberal government
receiving a full share of his
attention.

The funeral of the late Miss
Jean Chapman took place on
Monday. The deceased was a
victim of typhoid fever and
complications, and was only 16
years of age. Other members
of the family are still ill with
typhoid. Miss Chapman was a
niece of Mrs. H. Higgins.

Mrs. W. C. Hoskins visited
relatives in Calgary during the
week.

Liberal Meeting Friday Evening

A meeting in the interests of
Jesse Gouge, liberal candidate
for Bow River, was held in
McCullough's hall on Friday
evening. Despite numerous
counter attraction, almost im-
passable roads and bad weather
there was a fair attendance.
The speakers were the candi-
date and Senator Buchanan, of
Lethbridge. Both speakers re-
ceived an excellent hearing
from the audience, which in-
cluded a large number of ladies.

FRANCOIS SINCLAIR

Mr. William Francis of Vul-
can and Miss Florence Minnetta
Sinclair of Kinsley, were
united in marriage on Oct. 5th
by Rev. H. W. Avison of Cen-
tral United Church Calgary.

The new sugar factory at
Raymond, Alberta, will open
for operations on Oct. 23. Ar-
rangements are being made for
a ceremony in connection with
the event, to be attended by
prominent men from both the
States and Alberta. The vis-
itors from across the line will
include President Heber Grant
of the Utah-Idaho Sugar Co.,
which established the Raymond
factory. It is anticipated that
this factory will be but the first
of a number eventually to be
established in the irrigated dis-
tricts of southern Alberta. The
factory expects to handle be-
tween 75,000 and 90,000 tons of
beets this year.

Hill's Meat Market, which
has been purchased by Wade
Matlock, will be closed until
November 1st as Mr. Matlock
finds it impossible to move into
town before that time owing to
the delay in threshing and im-
possible roads. On Nov. first
this store will be reopened with
a complete stock of fresh and
cured meats.

It happened so often that the
weather was greatly improved
on Thursday, only to be fol-
lowed by rain or snow that we
hate to say anything much
about it. However, it is again
looking like fine weather as we
go to press. We hazard no
opinion as to the future.

In a reference to A. H. Pest-
man's newspaper and magazine
agencies last week the Saturday
Evening Post was quoted at
\$1.50 per year. This should
have been \$2.00 as reference to
the connected item in another
part of this issue will convey.

With threshing operations
almost beginning another day's
rain on Saturday again puts the
commencement of operations
back for several days. This
rain, however, took off the snow
and in the end may have im-
proved the situation at large.

F. Bacher is moving his
family from British Columbia,
where they have resided for
some years, to the farm here.
Gradually the old timers are
arriving back again.

Mrs. (Dr.) Freeze visited in
Calgary during the week.

Children's Hose

We have just opened up a
complete line of good quality
Woollen Stockings for Kid-
dies, ages 1 to 10, and also
Youth's 10 to 16 years. Cost
no more than the ordinary
kind.

Crate Apples \$1.95

Good Cookers.

**Sugar dropped 10c per
100 lbs. this week. Get
your stock now.**

B. M. ROBERTS

The Man Who Does Things.

Ship Your Poultry to P. Burns & Co.

We can supply you with
crates any time.

Champion's Champion Meat Market

That Boy of Yours

Needs a new pair of shoes and a pullover
sweater right now! Bring him in, and we
will fit him.

Men's Leather Vests

We completely sold out our first lot of this
popular garment and our second shipment has
just arrived. Get yours while all sizes are in
stock.

**A few cases of Crabapples
left at \$1.95 case.**

CAMPBELL'S

"Where They All Go."

Commercial rates on application.

THURSDAY, OCT. 15, 1933

NOTES AND COMMENT.

This has been quite a stirring week in the political situation. Both Liberal and Conservative leaders have been heard in person or over the radio, and two of the three candidates have held meetings in Chamption. These latter were hampered by bad weather and roads, but the attendance indicated a keen interest in political matters.

The published reports of political speeches in this province and elsewhere in the Dominion should have a chastening effect on extreme partisans of any kind. The wind is tempered to the lamb to be shown very carefully. Many things, such as a duty on coal, appeal to the miners here, but are urged in Ontario, but as time goes on it becomes more and more apparent that the choice lies between a tariff along present lines and a highly protective tariff on manufactured articles. The party which has been in opposition has no advantage in the discussion in not being forced to completely outline their policy, which permits variations to suit the different localities, and it requires little observation to realize that they are using this privilege extensively. The existing government must be defended and judged on its record.

The Dominion of Canada is an extensive tract of country with varying interests, and to foster some of these at the expense of others would not appear to have any of the earmarks of a national policy, or one that would lead to national unity or progress. British Columbia grows fruit and wants it protected; Alberta has coal which could be sold over a greater territory if American coal was subject to a high duty; Ontario and Quebec would get more for their manufactured goods if outside competition was eliminated. The consumer of fruit, coal and manufactured articles would have to pay more, exactly as he does for automobiles which carry a duty of 35 per cent and are one third higher in Canada than in the United States.

From the Rocky Mountains to Winnipeg Western Canada is almost purely agricultural. A duty on wheat and other grains, live stock, dairy products, etc., will preserve the Canadian market to the farmer and Canadians would be made to pay more if the surplus production from the farmers could be sold at the same inflated prices elsewhere. If this was not possible, no increase in prices would follow the imposition of a duty.

Manufacturers and coal operators produce for the available market and work half time or close down altogether if their are no purchasers. The farmer can choose his products but he may run into a glutted market in any line as he cannot control his production, a fact that has

been very apparent in this country. Under any circumstances he cannot shut down. He must keep on sowing and reaping continuously, accepting prosperity or adversity in accordance with yields and prices.

With the production of foodstuffs the basic industry of the country would it not appear that those concerned in it should be the first consideration of any government because upon the purchasing power of the producer practically all other industries depend? One thing is practically certain. If the farmer does not vote to protect his own interests he can find no fault with others who endeavor to bolster theirs by political means.

There will always remain a difference in opinions regarding public affairs. In the past the whole country has stamped in one direction only to stampede back again. No government could remedy the situation that has prevailed here for some years past to any appreciable extent. Our difficulties were outside government control. Governments of the future, despite promises and theories, will not make or make the Dominion. They may be depended upon to spend more money than they should no matter what particular name they do their spending under. Every elector should poll his vote, however, to the best of his judgment. The country will go on no matter which party is in power but there is sufficient difference to give every citizen of the country a good chance to make a choice.

The wonderful things which alterations in the tariff have done or may do are being stretched at the present time to cover almost everything that has occurred or may occur in the country. But the average man is thoroughly aware that the tariff has mighty little to do with most of the conditions we must face. Neither a high or low tariff could have prevented the agricultural depression which swept over both Canada and the United States since the war. Cause and effect were out of the reach of politicians, regardless under what name they dispensed their goods, and the prosperity of the future, if it depended on the legislation being forecast and promised at the present time, would certainly not be satisfactory. Canada is first of all an agricultural country and good or bad times depend on the crops grown and what is received for them more than anything else. Good government may help but that is the best that can be expected of it. What we need at the present time is a government that will use every effort to lighten the burden of taxation we are struggling under, and the man or party who impresses you as making this the greatest consideration is the one you really want.

Dr. R. R. McIntyre

DENTIST

714 Herald Block, Calgary. Will be at Chamption all day Monday each week.

Local Pastor

Joins Benedicts

In the presence of a large number of friends and relatives the wedding of Miss Clara Bauer, daughter of Mr. and Mrs. John Bauer, North Church street, and Rev. H. J. Mosser of Chamption, Alberta, Can., was solemnized Tuesday evening in the St. Paul's Lutheran church. Rev. Walter Johnson, new pastor of the church, performing the ceremony. The double ring service was read.

The church was decorated in garlands of flowers, and ferns, the color scheme of pink and white being carried out in the decorations, gown and menu.

The bride wore white tulle over peach, a full length veil, and carried a shower bouquet of tea roses. Her maid of honor was Miss Vera Bauer, sister of the bride, her matron of honor was Mrs. Byron Bellas of Tunceda, and bridesmaids were Miss Alina Bauer, Miss Corinne Bauer, both of whom are cousins of the bride, Miss Esther Babin of Tunceda and Miss Blanche Johnson of Iowa. Ernest Wenger and Byron Bellas of Tunceda served as the bridegroom's attendants.

A reception was held in the bride's home after the ceremony and was attended by about thirty five guests. The bride is a graduate of the De laur high school and of Brown's Business college. For the last six years she has been employed at Staley's. Mr. Mosser is a graduate from Concordia College Fort Wayne, Ind., and of Concordia seminary in Springfield. He now has a pastorate at Chamption, Can.

Rev. Mr. and Mrs. Mosser left early Thursday morning for Fort Wayne, Ind., for a short visit, after which they will go to Michigan to visit the bridegroom's relatives, thence to their home in Canada. Out of town guests in attendance at the wedding were Mr. and Mrs. Ernest Kneukenberg, uncle and aunt of the bride, Mr. and Mrs. Henry Babin, Andrew Babin and daughter, Esther Babin of Tunceda; Mrs. Stash and Mrs. Snapper of Booby; Miss Blanche Johnson of Iowa; Mr. and Mrs. Byron Bellas of Tunceda.

J. FRED SCOTT LL.B.

Barrister, Solicitor, Notary Public of Bank of Montreal Building, Calgary, will be in Chamption every Saturday afternoon and evening, in the Savoy Hotel building.

Two New Beautiful Designs in

Congoleum Gold Seal Rugs

A few years ago you had to buy an expensive rug if you wanted beauty, design and harmonious color effects. Then you had a dusty, unsanitary rug which increased your labor, and many times faded when exposed to the sunlight.

—TO DAY—

Congoleum offers you rugs which are beautiful in design. It lies flat to your floor, always looks clean and is easily kept clean. They are sanitary, waterproof and will not fade.

They will give you years of service if you give them ordinary care and attention.

Our stock is always well displayed so you can easily choose your pattern.

Congoleum Prices

Local and General

Mrs. P. M. Patterson was a visitor to Calgary during the week.

Miss Henderson, of Calgary, who has been on a visit to her sister, Mrs. W. R. Melton, returned to Calgary recently.

N. Hill, who has operated Hill's Meat Market for a year past, left on Wednesday for his farm west of town. His successor will reopen the butcher shop on Nov. 1st.

Mrs. J. N. Boabier has just completed a six months' trip in the north country on O.E.S. work, and will return to Champion shortly.

Louis Warren has purchased A. D. Adams' half section just south of town. Rumor places the price in the neighborhood of \$25 per acre.

The campaign for increased membership of the Alberta wheat pool is progressing. Over 600 new members were received in the first ten days of the drive.

Plans are now being laid by the officials of the wheat pool in Alberta to start a course grains pool if there is sufficient response. Contracts are now being mailed to members to ascertain the extent of the demand for such a pool.

The Canadian National Millers' Association are urging an export duty on wheat which is to be milled in bond. This might reach the United States miller but it might also drive wheat into another channel at the farmer's expense.

After vainly importuning the village council to remedy the flood situation in the vicinity of his blacksmith shop, Burley Hummel undertook the job himself with great success and his description of how the water run was very realistic.

Institute women will be interested in hearing that Mrs. Wellington Huyck of Strome, the Alberta president, expects to visit all the southern institutes during the latter part of October.

WHAT HAPPENS TO OUR POLITICIANS?

Do you ever ask yourself this question—what happens to our politicians when they get to Ottawa? What mysterious influences are at work in Canada's Capital that transform a newly-elected representative of the people—a sincere, straight-forward, plain-dealing man—into a person of subterfuge and complexity; or perhaps an apathetic atom in an inadequate machine; or worse, an active opportunist—just another politician.

How many unweaned can recall who have sought representation in the House of Parliament on the ground that, once there, they would work untiringly for the betterment of their constituency and their country? And how many have accomplished their purpose? Probably few. They have turned their term of representation into a term of dissimulation and strange inarticulate as to the reason of their failure.

In his remarkable story, 'The Land of Afternoon,' Gilbert Knox tells us why these men have failed. With ruthless skill he draws aside the curtain that shrouds the workings of the political machine and shows how happy they are to idealism when ranged against the powers that govern the institutions of our country. His novels, also, with trenchant wit, often encountered in Canadian-born shows, how the social element per-

meates the body politic and influences the course of a politician who has entered the Capital of Canada wholly unaware that such a condition could exist.

Farm Land For Sale

S. W. 1 of Sec. 26; Tp. 15; R. 25; W. of 4th Mer. containing 161 acres more or less.

By public auction in front of the Office at Vulcan, on Saturday, the 24th day of October, 1925, at 4 o'clock p. m., by C. B. Schimp auctioneer.

The property will be offered for sale and excellent farming district about thirteen miles from Vulcan and about the same distance from Champion and within one and a half miles of a school.

Buildings: House 12x21, lean to 10x14, shed 12x18, stable 12x14, granary 18x20, granary 10x14. Also a good water supply from two wells. Approximately 115 acres have been broken and there are about 55 acres in summerfallow for 1926. The soil is chocolate loam clay subsoil.

The property will be offered for sale at an upset price of \$2000.00 at which bidding will start.

Terms: 10 per cent cash—balance into Court in 60 days without interest. Standing conditions to apply.

Action No. 24320 Supreme Court of Alberta.

Further particulars may be obtained from McLean, Patterson and Company, solicitors, McLean Block, Calgary, Alta.

Dated at Calgary, this 28th day of September, 1925.

A. G. A. CLOWES, Clerk in Chambers. Approved: L. F. CLARRY, M.C.

The most urgent requirement in Canada's Agricultural Products

CANADA produces every year large quantities of wheat, oats, barley, butter, cheese, bacon, beef, eggs, apples, potatoes, grass seed and clover seed that she cannot consume. Her natural outlet for these products is, of course, Great Britain—the one great consuming country of the world with an open market.

Unfortunately, nearly every other country with any surplus of food products seems to want to send its surplus to this same market.

The keenness of the competition on this, our only market, and the energy and resourcefulness of our competitors began to impress themselves upon the Department of Agriculture some time ago, but it is only within very recent years that the real and only way to grapple with this problem has been discovered, or at least put into effect. This Department now believes, as do also most of the farmers of this country, that the "grading" of our agricultural products is the policy and practice that is seeing us through the struggle and will assure us of our rightful place on the British market.

"Grading" means the classifying of products, whether they be hogs, butter, cheese, eggs or anything else, into what might be called in a general way "BEST," "GOOD," "FAIR" and "POOR" classes.

These exact words are not used in describing the grades, but that is what is meant. The purpose served in grading is threefold—

(1) Educational. When the producer sees the relative quality of his product he is spurred on to maintain that quality if it is the "best" or to improve the quality where necessary.

(2) Fair Play. When products are not graded the inferior article for various reasons often brings as much as the superior article, and the credit and advantage of putting the superior product on the market is lost to the one who really deserves it.

(3) Facilitating Trade. The dealer learns to have confidence in the article he is buying and buys more freely, because it is guaranteed by grading, and gradually everybody gets to know what the "best" article really looks like or tastes like. In short, grading brings about standardization and ensures to the producer the best price.

Canada now grades her cereals, grass seeds, hay, potatoes, apples, eggs, butter, cheese, wool and bacon hogs. The results have been in every case beneficial and in some cases quite markedly so, even though the grading system has been in effect in some cases for only two or three years.

Cheese—Grading began April 1st, 1923. Canadian cheese the year before had fallen into such disfavor on the British market that New Zealand cheese was quite commonly preferred. Today Canadian cheese commands cents per pound higher than New Zealand.

Butter—Grading began same time as for cheese. The reputation of our butter was then in a low ebb. Canadian butter today, while not the best on the market, is rapidly improving in quality and gaining in reputation.

Hogs—Over two years ago the Department of Agriculture began to grade hogs at the packing houses and stock yards. The 10% premium paid by the packers for "select" bacon hogs as against "thick smooths" as classified by departmental graders has done wonders to improve the quality of our hogs and develop the bacon industry.

Best Canadian bacon, which ordinarily was quoted two years ago from 10 to

18 shillings a hundredweight below Danish, has gradually grown in the estimation of the British wholesale buyer until it is now quoted at only from 1 or less to at most 5 or 6 shillings below hundredweight below the best Danish.

This improvement in price is, of course, due to quality and has come about very gradually, the spread narrowing down by a shilling or two a month until now it is not at all a rare occurrence to see Canadian eggs selling on a par with the Danish article.

Eggs—Canada was the first country to grade and standardize eggs. These grades and standards apply not only to export, interprovincial and import shipments, but also to domestic trading.

The basis is interior quality, cleanliness and weight. Standardizing Canadian eggs has established confidence between producer and consumer and between exporter and British importer, and has resulted in a greatly-increased demand for the Canadian egg both at home and abroad.

Other products might be mentioned where grading has worked to the great advantage of the producer and to the advancement of Canadian agriculture.

Already Great Britain recognizes our store cattle, wheat, cheese, eggs, apples and oats at the best and best prices.

It is for us to improve our other products, particularly our butter and bacon, as to bring them also into the list of the "best on the British market" and consequently the highest priced. Grading enabled us to do this for cheese, wheat, eggs and apples. Grading is helping us to do it for butter and bacon.

Quality is the key to the success for the Canadian export trade, and, therefore, regular quality is the key to the success of Canadian Agriculture in working by educational methods, and the result of this policy is the improvement of Canada's agricultural exports. Look at these figures:

Canada's Principal Exports of Farm Products

| | 1920-21 | 1921-22 |
|-----------------|-----------|-----------|
| Wheat (lbs.) | 1,200,000 | 1,100,000 |
| Barley (lbs.) | 600,000 | 500,000 |
| Oats (lbs.) | 400,000 | 300,000 |
| Hay (cwt.) | 200,000 | 150,000 |
| Butter (cwt.) | 100,000 | 120,000 |
| Cheese (cwt.) | 50,000 | 60,000 |
| Eggs (cwt.) | 30,000 | 40,000 |
| Apples (cwt.) | 20,000 | 25,000 |
| Potatoes (cwt.) | 10,000 | 15,000 |
| Wool (cwt.) | 5,000 | 6,000 |
| Bacon (cwt.) | 4,000 | 5,000 |
| Grain (cwt.) | 3,000 | 4,000 |
| Stock (cwt.) | 2,000 | 3,000 |
| Other (cwt.) | 1,000 | 1,000 |
| Total (cwt.) | 2,500,000 | 2,000,000 |

DOMINION DEPARTMENT OF AGRICULTURE, OTTAWA

BRITAIN WOULD ACT AS MEDIATOR AT CONFERENCE

Locarno.—A new incident bearing of vital importance to the success of the Locarno security conference came in the form of a long private meeting between Foreign Minister Stresemann, of Germany, and the British foreign secretary, Austen Chamberlain, late Chancellor of the Exchequer, Mr. Stresemann and Mr. Chamberlain not only discussed the problems immediately before the conference, but the whole range of European questions on which mutual understanding and agreement are essential before political reconstruction can be achieved.

Mr. Chamberlain is anxious to serve as mediator between the opposing views of France and Germany on the problem of a French guarantee for Poland. The two statesmen went over this matter in an endeavor to find a formula.

Organizing Another Antarctic Expedition

Captain Wilkins Has Purchased Plane
Used By Amundsen
London.—Captain George Wilkins, the explorer, who recently returned to London after thrilling adventures with exhumers in the Far North of Australia, is organizing a new Antarctic expedition, which will probably set out in a few months' time. Captain Wilkins has had an adventurous career, including a voyage to the Arctic with Stefansson and to the Antarctic with Shackleton. He has purchased the aeroplane used by Amundsen on his Arctic flight. "It is more than likely that we shall use the machine in the Antarctic," he said recently. "The expedition will realize the importance of the work we have in hand, and will help to carry our machines and supplies to the Bay of Whales, whence I expect to start the flight at the end of 1926. We expect to make for Graham's Land, where cover 1,500 miles of new coast line."

Saskatchewan Wheat Pool

Date Is Set For The First Annual Meeting
Regina.—The date for the first annual meeting of the Saskatchewan wheat pool delegates when the delegates met at the Regina headquarters. Each of the 16 pool districts in the province will send one delegate to the annual meeting, which will be held in Regina, Sask., on Monday, November 22. Preparations are now being made for the election of the 1926 pool delegates. Nomination papers are in the mail for the secretaries of all pool localities. They are returnable not later than 6 p.m. Monday, November 22. The elections will close Monday, November 23. Immediately nominations have closed, ballots will be sent out to the 65,600 shareholders in the pool. Any six contract signers in the pool can nominate a candidate for election as a delegate, and the local secretaries have been requested to call nomination meetings.

Freight Rate Equality

Adjustment Cannot Be Forestalled Much Longer, Says McGee
Vancouver.—"The day of freight rate equality in Canada long past due, cannot be forestalled much longer," said G. G. McGee, C.C. government freight rate committee, on his return from Ottawa. "It will be good news to Vancouver," said Mr. McGee, "that the Alberta wheat crop will be approximately 600,000 bushels. It is not enough the snow has had any serious effect."

Prince Writes A Play

Stockholm.—Prince William, King Gustaf's younger son, known as Sweden's royal poet, has recently completed a new play, which has been accepted for production by the Royal Dramatic Theatre. It is titled "On Board" and deals with life at sea, in which the prince has had considerable experience, having been trained for the navy.

Distress Signal Unintentional

Seattle, Wash.—Distress signals received here from an unidentified vessel in the Pacific Ocean were sent unintentionally by some member of the crew of the Icelandic ketch, which was tinkering with the ship's apparatus in the absence of the operator. It was reported by the Seattle Harbor Radio Station.

Prosperity In Britain

Daily Mail Discovers Two Centres Where Trade Is Particularly Good

London.—In these times when so much doleful news with regard to the state of British industry is appearing in the newspapers, it is refreshing to find that The Daily Mail has discovered at least two prosperous centres in the country, Gwent and Leicester. Gwent is described by The Mail as the busiest place in the United Kingdom. The motor car factories there are working at the highest pressure, and The Mail attributes this happy state of affairs largely to the re-imposition of the McKenna duties. In Leicester the woolen and hosiery trades are said to be showing such improvement that but for the Australian tariff the town would be one of the most prosperous in the whole country.

The factories are working over time, and the export trade is good. The shoe-making industry is also prosperous.

Baseball Idol Passes

Christy Mathewson Dies As Result Of War Injuries

Saratoga Lake, N.Y.—Christy Mathewson is dead. Baseball's "Big Six" just his name, and his career, just as his fame, great. Christy Mathewson was the greatest pitcher who ever lived, and his death is a great loss to the game. He was killed in action in 1918, while playing an important part in the war. He was a member of the United States Army, and was killed while serving in the trenches. His death is a great loss to the game, and his memory will be long remembered.

Urges Commercial

Air Development

Air Force Aiding Canadian Industry
Says Commander Scott
Ottawa.—The Royal Canadian Air Force and its development along the lines of civil aviation, was the theme of a lecture before the Ottawa branch of the Engineering Institute of Canada by Commander Capt. J. Stanbury Scott, M.C., A.F.C., D.C. He said it was the particular function of the force to develop the air power of Canada by the spread of commercial aviation and the cultivation of a sound aviation air power.

Among the industries that have been considerably helped by the force in Canada is the salmon fishing industry on the Pacific coast, he said. The salmon patrol for the suppression of illegal fishing and the use of improper or unlawful practices are employed. The officers flying in this patrol are all aviators, and are equipped with wireless communication maintained from the aircraft to the stations.

Arguing Over Treaty

French Official Circles Pessimistic Over Demands of Germany
Paris.—The French official circles are pessimistic over the demands of Germany for the return of the Alsace-Lorraine region. They are arguing over the terms of the treaty, and are not in agreement on the demands of Germany.

Quell Bryan Uprising

Beirut, Syria.—A Syrian cavalry squadron has put down a "demonstration" of the Arabists at Hama, killing or wounding 30 of the demonstrators. The crowd, which included a number of British soldiers, was dispersed by the cavalry. The British soldiers were ordered to fire on the crowd, and a number of people were killed.

Heavy Sentence For Letter Thiefs

Montreal.—Four stealing 13 letters, containing in all not more than 30 cents' worth of mail, were found in the possession of a man, who was sentenced to three years in the penitentiary.

West Canada Livestock Union

Saskatoon.—The 11th annual convention of the Western Canada Livestock Union is to be held, for the first time, in Saskatoon in January. S. W. Jones, of the Saskatchewan Livestock Union, is expected to be the guest of honor. The convention will be held at the Saskatoon Hotel.

Arrests Arrested Several

Peking.—A mandate has been issued ordering the arrest of several persons in the province of Chi-Li, who are alleged to have been using General Wu Pei-Fu to return to Hanoi and rescue the civil war. It is believed here that the arrests are likely to ensure peace for several months.

A Move For Peace

Gods of War Receive Rebuke At Inter-parliamentary Meeting

Washington.—The gods of war are receiving telling rebuke. World War parliamentary leaders here approved unarmored frontier zones and unanimously called for a peace conference. The move to summon the world to the peace is being made by the British, with notable unanimity among the nations gathered. The union not only subscribed to the plan for universal peace, but heard delegates of Japan and Great Britain urge the United States to take the initiative. First of the nations to call for cessation of strife was Japan. France, Great Britain and Germany quickly approved.

GERMANY WANTS TO INSURE PEACE FOR THE FUTURE

Loborno, Switzerland.—Not only peace now, but peace for all time is the aim of the German government. The German chancellor, Dr. Brüning, has declared his willingness to "join with any great powers in any conference for the further reduction of armaments or for the reduction of land armaments."

The two leaders alone quietly away from Locarno and, moving at a speed on the shore of Lake Maggiore, had a frank talk on European problems as a whole, and especially how best to consolidate the peace of Europe. The meeting of conciliation, marked by an expression of the determination of both statesmen to do everything humanly possible to banish the Franco-German war spectre, has inspired a new ray of optimism into the political atmosphere, despite the fact that it did not result in the fashioning of a formula whereby France can guarantee, in a special way, the territorial integrity of Poland and Czechoslovakia, her allies.

Saskatchewan Dairy Pool

Intensive Campaign For Members To Be Launched At Once
Regina, Sask.—Contractors working on a commission basis will launch a campaign for contracts in connection with the Saskatchewan Dairy Pool Limited, which has opened headquarters in this city.

Trainmen Stick To Post

Wilkesbarre, Pa.—Probably the last scaled when steam locomotives left locomotive, Gas Geiser, engineer, and Robert Matthews, fireman, stuck to the post until they had brought their train to a stop and saved their passengers' lives.

Closed Halibut Season

Vancouver.—At the closing session here of the International halibut convention it was decided to again extend the closed season on halibut for the next two years, the date being from November 15 to February 15.

The Day Is Done and the Darkness Falls from the Wings of Night

A view of Partridge Island, at the entrance to Saint John (N.B.) harbor, taken from the deck of a Canadian Pacific steamship as, at twilight, she approaches the end of her journey.

CRITICIZES OUR CONTRIBUTION TO IMPERIAL NAVY

London.—Truth, the weekly paper which occasionally comments upon the policy of Canada's contribution to the British navy, again returns to the subject of the Canadian naval contribution. Truth suggests that the people of Canada might find something to think about in Premier Croft's reply to a question from the New Zealand Navy League, which waited upon him recently and urged the government to contribute a third battle cruiser to the British navy.

Premier Croft reminded the delegation that New Zealand's per capita contribution from imperial naval defence had increased this year from eight to ten shillings, according to a London dispatch to a London daily, and that personally, he thought a steady development like this was better than precipitate action such as the New Zealanders.

Truth states that New Zealand's contribution to the Imperial navy next year would be nine shillings per head. It is the New Zealanders' contention: "It is our job to do all that we can to keep the renewal of cruisers up to the mark."

The seaborne trade of Canada, Truth says, is very much greater than that of New Zealand, and Canada's western flank is much more exposed. Two lead destroyers are not much of a contribution to the navy of the empire, the paper adds.

How To Save

Interesting Booklet on Yearly Purchase Plan Aim To Small Investors

An interesting and valuable little booklet is published by Barnett Sales Co., Ltd., investment bankers, of Montreal, setting out an excellent plan whereby the public of Canada may buy gold securities and pay for them over a period of one year. The object is to cultivate the habit of saving money among people who have never been in the habit of buying securities, and show them how profitable it will be for them to invest their savings in this way and spread the payments over a year.

Good securities can be bought on this plan, with all the opportunities of the investment of money, and yet the investor has an entire year in which to pay off the balance due on his account. Under this plan the investor pays 25 per cent of the purchase price on placing the order, and the balance, including the customary interest, is then equal monthly instalments. The book outlining this plan can be obtained upon application to the company at its Montreal office, Canada Trust Building, Phillips Square.

Probing Tangle In Europe

Committee of Interparliamentary Union Will Investigate Economic Barriers

Washington.—The Interparliamentary Union, in final session here, adopted a resolution calling for an investigation of economic barriers between European nations, with a view to their ultimate extinction. The resolution, which was adopted without objection, was introduced by H. P. Proge, of Finland, as a substitute for one presented by Adolf Braun, of Germany, recommending the creation of a customs understanding between European nations. The Proge resolution directs a sub-committee of the conference committee on economic and financial questions to study the problem and report to the next conference.

Closed Halibut Season

Vancouver.—At the closing session here of the International halibut convention it was decided to again extend the closed season on halibut for the next two years, the date being from November 15 to February 15.

Rumors Are Denied

Saskatchewan Co-operative Elevator Co. Refute Stories of Loss

Regina.—In view of rumors alleged to have originated in Winnipeg, that the Saskatchewan Co-operative Elevator Company sustained a heavy loss in handling last year's crop, the following statement was authorized by the company: "The policy of the Saskatchewan Co-operative Elevator Company is to handle the crop of the province at the annual meeting of shareholders which will be held December 16 in Regina. The statement of the company's operations for the financial year 1921-22 will be going forward to all shareholders within the course of a few days however. The fact that a dividend of eight per cent for the financial year 1921-22 which ended July 31 last, was declared and paid in August last amounting to approximately \$100,000, is a very clear indication that the company's operations last year were on a very successful basis."

Ready To Reduce Armaments

Britain and Japan Willing To Join In Action

Washington.—While the Inter-Parliamentary Union resolved to sponsor a conference for world disarmament and protection of troublesome national border lands, spokesmen from the British and Japanese groups declared their willingness to join with the United States in a concerted action for further reduction of armaments.

The resolution on armaments reduction, reported by Dr. H. M. Jones, of Denmark, expressed regret that expenditures for armaments by the United States had increased a "serious increase," stated the necessity of giving nations a feeling of security, and called for a thorough examination by a special sub-committee of methods for reducing armaments, including the drafting of a technical scheme to bring this about. It was adopted without dissent.

WILL STIMULATE CATTLE EXPORTS TO GREAT BRITAIN

Saskatoon.—To stimulate the export of Great Britain of Canadian cattle by providing transportation facilities designed to meet the requirements of the cattle in large lots, the federal department of agriculture has secured the verbal consent of the British board of trade and ministry of agriculture to the admission to Great Britain of cattle shipped in lots of 1100 instead of the present stipulated limit of 500, 1000, or 1500. Mr. Mowbray, minister of agriculture, announced here this morning.

Mr. Mowbray was in receipt of a cable from W. A. Wilson, former dairy commissioner for Saskatchewan, and now Canada's agricultural products representative in Great Britain announcing the agreement.

New Appointment

Permanent Legation Post For Canada At Geneva Given Col. Obed Smith
Windsor, Ont.—Following to meet recently in London, J. Obed Smith, minister of immigration, London, Eng., for the Canadian Government, has been appointed permanent representative of immigration to the League of Nations. It is understood that he will leave for Ottawa and Geneva shortly to assume his new duties.

Cost, Drake Missing

Seattle, Wash.—Captain J. W. Drake, who left Seattle alone in May for England in a small schooner, has not been heard from since he called from San Diego on August 15, according to J. W. Long, of Seattle, an old friend of Drake's. Drake has planned to sail around the Horn.

Report Egg Storage

Montreal, Que.—There is a shortage of eggs in the city at the present time, dealers here have been forced to import eggs from the United States. The weather, which has affected the progress of breeding operations, has also prevented the farmers from travelling over country roads to the city with their produce.

Dominion Not Committed

London.—The London Times publishes a Berlin dispatch quoting the Deutsche Zeitung in a summary of the draft of the security pact, in which it declares that one article directly stipulates that Britain only consults herself, and not the Dominions.

Heads Big Impellent Company

Toronto.—The appointment of Joseph N. Plummer as president of the "Hawthorn" Electric Co., an association to form Vincent Mays, who resigned several days ago, was announced here.

MRS. O. E. HARGREAVES
Proprietress.

Mrs. C. Thomas and family wish to extend their sincere thanks to the many friends and neighbors for their kind sympathy and help during their recent bereavement.

Mrs. Fitch, of Edmonton, an old timer of the Champion district is visiting her daughter, Mrs. H. Tindall, and others.

Mr. and Mrs. D. Chamberlain entertained on Wednesday in honor of Mrs. Chamberlain's birthday, a large number of friends being present.

A burglar crawled through a window at Indianapolis into an automobile repair shop. From the window to the floor was a 10-foot drop, and right under the window was a barrel of transmission grease. Plunging into the barrel he fell up to his neck. He made his way out of the building without stealing a thing.

To Newspaper Subscribers

When ordering your newspapers or magazines bear in mind that A. H. Peatman can secure these for you, without any additional cost to you. He can also secure you any magazine published in America, saving you the cost and trouble of making a remittance. He specializes in the Curtis publications, viz.—The Saturday Evening Post at \$2.00 per year. The Country Gentleman, three years for \$1.00 and The Ladies' Home Journal at \$1.00 per year.

Mrs. F. Alecock spent the week in Vulcan enjoying in W. I. work.

An effort to drag the streets on Thursday had to be abandoned owing to rain.

Mrs. Manhard had a serious fall on her collar-stay on Wednesday, but escaped with nothing more serious than a bad shaking up and the loss of a pair of preserves.

Agnes Holmes was injured by falling against the cement foundation wall of the school. What was at first thought to be a broken nose turned out to be a very bad bruise.

Pittsburg won the seventh and deciding game of the World's Series on Thursday in a rain storm. The daily game will be greatly missed by citizens and others, the vicinity of J. M. Moffatt's store having been extremely popular during the series.

Junior Hockey Club Organized

The Junior hockey club organized for the season on Thursday evening, Oct. 6th. The meeting was held in the Savoy Cafe, where a supper was served, and was of the enthusiastic type in every way, the boys and their guests thoroughly enjoying their selves as well as taking care of the business in hand.

The following officers were elected: Hon. President—O. M. Campbell. President—E. Mason. Vice President—H. Hammell. Manager—H. H. Curry. Sec. Treas.—H. W. Millburn. Coach—J. M. Moffatt.

Hockey prospects this year are unusually bright for the Juniors, and they will start the season with the town at large behind them.

As a send-off the managers of the Champion Theatre have donated the proceeds of the splendid British naval picture, "Zeebrugge" which will be here Nov. 3-4 to the club and the boys are now selling tickets for this picture and without doubt everyone will buy.

New uniforms and other accessories will be secured this year, and the material in sight assures a husky junior aggregation which will provide real hockey entertainment during the winter.

Prince of Wales Real Style Dictator

It's a funny thing where styles are born, but the real men's fashion "mystery home" was until a few years ago, just a little seaside village in France, where the old fishermen fished, and the peasants brought their produce to market.

Deauville, France, today is perhaps the world's most popular seaside resort, and it is here that new styles for men are first presented, eagerly sought for by the rest of the world, and quickly copied.

Here has the Prince of Wales first presented and popularized such well known fashion features as:

The Guard necktie
The Navy Blue overcoat
The long lapel double breasted coat
The popular low notch single breasted coat with wide cutaway at bottom

While we are far away from Deauville, these fashions travel fast, and our progressive local merchant B. M. Roberts tells us he has them right off the "grill" from Deauville, where they have had a chance to cool off.

Dresswell, whose line B. M. Roberts is featuring, keeps in close touch with these new fashions, and as soon as they are issued, B. M. Roberts has them ready for our local men to wear.

Heavy Crops In Canada

Notwithstanding a heavy rainfall in the prairie provinces during the early part of September, which temporarily halted harvesting operations, the smelting of the Western crop has proceeded rapidly and reports from the head of the lakes and elsewhere indicate that the grain is coming forward in much greater volume than at the same time last year, the harvest being about two weeks earlier than a year ago. Some damage to the crops has occurred through rust in Manitoba and Saskatchewan, but the grain so far marketed is grading high.

Yields in some parts of each of the prairie provinces have been lowered either from drought, hail, sawfly or frost, but it is expected that the returns will exceed the ten-year average.

The forecast of the Dominion Bureau of Statistics as at 31st August was for a total Canadian wheat crop of 382,000,000 bushels, as against its estimate at 31st July of 375,000,000 bushels, which compares with a crop of 382,000,000 bushels a year ago. The view of other authorities also is that a revision upwards is warranted and the prospect of a larger exportable surplus has tended to depress prices slightly. The estimated production of wheat for this year has only been exceeded on three occasions, 1915, 1922 and 1923; that of oats (515,000,000 bushels) on two occasions, in 1920 and 1925, flaxseed (9,453,000 bushels) by last year's total of 9,094,750 bushels, while barley (112,000,000 bushels) is the largest on record, the previous highest yield being 89,000,000 bushels in 1924.

Of the estimated total grain production of the Dominion for the current year the following are the percentages for the prairie provinces: wheat, 92; oats, 92; barley, 84; rye, 86; flaxseed, 18. Not only is it the case that there has been a rise in the price of grain, but also that average yields are being obtained throughout western Canada, but ex-

cellent crops are being garnered in the other provinces of the Dominion. The estimated hay and clover crop is 15,165,000 tons, which is the largest since the record of 1919, in which year the crop was 16,348,000 tons. The potato crop is estimated to be 30 per cent less than a year ago, due to the smaller acreage planted and to drought, and it is expected that higher prices will rule. Generally speaking the apple crop, which is slightly less than that of 1924, is of good quality.—From the Monthly Commercial Letter of The Canadian Bank of Commerce.

Farmers and neighbors recently joined in a fruitless search for a giant snake, supposed to be living in a swamp near Lebanon, Ohio. The snake, said to be as big as a stove pipe, crawled between the legs of a plow horse, according to the story, and scared the horse and plowman into flight. The snake is believed to be one that escaped from a circus 25 years ago.

Only agriculturists and highly skilled artisans are admitted as immigrants to the Argentine.
